as well as most careful scrutiny of the passengers of the vessel. The regulations are the most specific and explicit on all subjects ever issued, and were prepared by Surgeon-General Wyman of the Public Health and Marine Hospital Service.

## RESTORATION OF MANUSCRIPTS.

BY THE ASSOCIATED PRESS—P.M.

WASHINGTON, April 22.—A committee of the National Academy of Science, now in session, called on Secretary Hay at the State Department today to confer with him as to the best methods of preserving and restoring old and valuable manuscripts. The Secretary is deeply interested in this subject, and Librarian Allen of the Department of State has made it a special duty, stimulated by the rapid fading away of some of the priceless manuscripts of the department, including the Declaration of Independence itself.

## BABCOCK BEHOLDS BENEFITS.

IN SECURITIES DECISION.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, April 22.—[Exclusive Dispatch.] Representative Babcock of Wisconsin, chairman of the Republican Congressional Campaign Committee, sees decided benefit, not only to the country, but to combinations themselves, in the recent decision of the Court of Appeals in the Northern Securities Company case.

"If this decision is confirmed by the Supreme Court of the United States, as seems probable," he declared today, "it means that, while the country is advancing commercially and industrially, the courts are keeping progress with that growth."

"There are none who will argue that the laws and decisions of our courts in years gone by must be maintained without progress in the face of development and the changing conditions of the country during that time. When this is taken into account, the decision of the court in the Northern Securities case must impress the student of the national events as a step in the right direction. It is a broad hint to financiers of the country by which they will doubtless shape their future course. It does not mean that legitimate combinations of capital cannot be made, but it does mean that where the sole purpose of a combination is making money in ways outside the legitimate business of the properties combined, that it is illegal and not to be tolerated."

"This is healthful development. It was necessary some restrictions and bonds should be placed on the tendency to consolidate everything, and this decision is the first step in the right direction."

## CROSS-ROADS STORES' DOOM.

BY THE ASSOCIATED PRESS—P.M.

WASHINGTON, April 22.—[Exclusive Dispatch.] According to the statements contained in numerous letters, complaints and protests received at the Postage Department of late, the days of the cross-roads "general store" are numbered. During Postmaster-General Payne's absence from Washington, Acting Postmaster-General Wynne issued an order instructing postmasters throughout the country to prepare lists of rural-delivery routes and post them in conspicuous place in their offices.

Since the issuance of that order, complaints regarding the service as an enemy to local industry have been more numerous than ever, and petitions addressed to the Postmaster-General have been received at the department by the score. Mr. Wynne's order was intended primarily to obviate some of the confusion resultant upon the discontinuance of star routes and the establishment of rural delivery, with consequent changes in the names of postoffices and addresses of patrons; but the complaints which have been coming in say that this posting of rural-delivery routes and addresses of patrons along their lines has worked very serious harm to the trade of rural communities.

It is said that a number of large mail-order firms which sell and ship everything from a package of pins to a bedstead, including live stock and steam engines, made a practice of sending representatives to postoffices throughout the country to copy lists of routes and patrons, which were later used in sending out catalogues and circulars descriptive of their wares.

It is admitted by officials of the Postage Department that, as the result of the general establishment of rural free-delivery routes, the mail-order business of the country has grown enormously. This is true, as well of the subscription lists of newspapers, which were wonderfully affected as to growth by the extension of rural free-delivery service. Complaints received at the department contain the general admission that the country general stores cannot compete in price with big mail-order concerns, and the statement is made that a great deal of this local business has been won away by more modern and enterprising competitors in the big cities.

## COST OF THE BLOCKADE.

BY THE ASSOCIATED PRESS—P.M.

WASHINGTON, April 22.—Great Britain probably will not insist on referring to The Hague the question as to whether the allies or Venezuela shall stand the cost of the blockade. This proposition was not included in the protocol of February 12, which provides for the consideration of only two questions: arbitration—preferential treatment and the method of distributing the 30 per cent of the customs receipts set aside for the creditor nations. It was presented several weeks ago by the British Ambassador Mr. Bowes-Lyon, who refused to permit the insertion of any extraneous matter in The Hague protocol. Neither Germany nor Italy is disposed to protract the negotiations unduly because of this condition.

British Ambassador has advised his government of these facts, and reliable information has been received that the London authorities now are disposed to permit the original protocol to stand unamended.

Mr. Bowes-Lyon returned from New York, where he has been for a fortnight. He will call tomorrow on the British Ambassador and ask that the negotiations be concluded in time for him to leave for Caracas by the end of May. Señor Pujol, the Venezuelan chargé, who has returned to Washington from his trip to Venezuela, where he carried advices to President Castro from Mr. Bowes, brought a long letter from Castro to Mr. Bowes, apprising the latter's course in the particular and reflecting the desire of the Venezuelan government that Mr. Bowes will see the case through The Hague. He will possess the full powers given him last winter on his departure from Venezuela.

Mrs. Castro is leaving Caracas shortly for an extended visit to Paris, and President Castro hopes to visit the United States next year at the time

of the St. Louis exposition. This journey was suggested to him by Mr. Bowes some time ago, whereupon the President replied: "I shall gladly go, if you will accompany me."

## PANAMA CANAL TOPIC.

BY THE ASSOCIATED PRESS—P.M.

WASHINGTON, April 22.—Aristides Fernandes, Minister of the Interior of Colombia, through the Governors of the States has addressed the editors of newspapers throughout Colombia, directing their attention to the importance of the future consideration in the newspapers of the subject of the Panama Canal. Copies of the address have been received in Washington. In substance it is as follows:

"The matter of gravest importance which should occupy the attention of the coming Congress to the exclusion of all else is the matter of the Panama Canal, and to decide this important business with proper and mature judgment, it is necessary that all patriots should use their best talents and positions to show to the people the many complicated questions involved in the case."

"It is not enough for the government and Congress to study the matter; it is necessary that all the people, the mass of the population, should be advised fully of the interest the nation has in the matter, as well as the many difficulties and problems which the different projects present."

"Therefore, the Minister calls upon all newspapers and editors to publish all they can obtain on the subject, as it is a matter of the gravest importance to the well-being of the country, as well as to the commercial interests of the world."

In private letters received in Washington, it is said that the opponents of the canal complain because the Colombian government permitted the soldiers to vote at the elections held for members of Congress.

## NEW ISLANDS IN SEA.

TAKEN BY UNCLE SAM.

BY THE ASSOCIATED PRESS—P.M.

WASHINGTON, April 22.—Official documents received from the State Department from the Philippines record the discovery of a number of valuable islands in the southern part of the archipelago, which are not on any of the charts in the possession of the government. So far as known no foreign government as yet has laid claim to this territory, and to preclude the possibility of a claim, Secretary Moody has taken steps to have the property of the United States, after first having every effort made to learn if any government had a ground for claim to the same. A naval vessel will probably be ordered to the southern part of the archipelago to prepare the necessary charts.

## CROSS-ROADS STORES' DOOM.

BY THE ASSOCIATED PRESS—P.M.

WASHINGTON, April 22.—[Exclusive Dispatch.] According to the statements contained in numerous letters, complaints and protests received at the Postage Department of late, the days of the cross-roads "general store" are numbered. During Postmaster-General Payne's absence from Washington, Acting Postmaster-General Wynne issued an order instructing postmasters throughout the country to prepare lists of rural-delivery routes and post them in conspicuous place in their offices.

"The Assistant Postmaster accepts the nomination and becomes a candidate for Mayor, and will be expected to resign his position in the post office."

## WASHINGTON BRIEFS.

Sent to Santo Domingo.

WASHINGTON, April 22.—Because American interests at Monte Cristo, Santo Domingo, are endangered by the revolutionary sunbont Valencia, the United States consular agent there has issued a warning to the American citizens at Santo Domingo, telling them that an American man-of-war is sent to the relief of United States interests. The cruiser San Francisco, now at Pensacola, probably will leave today for Santo Domingo City, whence she will proceed to Monte Cristo.

## News from Minister Powell.

WASHINGTON, April 22.—In a dispatch dated Port of Spain, April 18, Minister Powell reports to the State Department that after two days of negotiations, he was compelled to capitulate to Gen. Vasquez and with his adherents, took refuge on the United States. After the departure of the United States, the British Consul at Santo Domingo, The dispatches report that the Haytian government has imposed a tax of 10 cents on each quintal of sugar produced. The law recently enacted prohibiting the imposition of any such duty for twenty-five years has resulted in the loss of \$800,000 in revenue in one year.

## Shipment of Philippine Coin.

WASHINGTON, April 22.—The first shipment of Philippine coin will be made from San Francisco about May 1. Secretary Root gave instructions today to Gen. Arthur to have officers detailed to receive the coin from the mint and place it aboard the transport to Manila, where it will be turned over to the Philippine government. The letter is signed "Alfred Dreyfus."

## MEXICAN NEWS BUDGET.

New Consul at San Francisco—Boer Colony in Chihuahua—Religious Festival Begins.

BY THE ASSOCIATED PRESS—P.M.

WASHINGTON, April 22.—Secretary Moody is inclined to believe that the prosecution of the naval officers at San Juan, Porto Rico, who are charged with desertion, is rapidly becoming perverted, and it is anticipated by the department that unless the attitude of the local officials there changes the desirability of San Juan as an important naval station may be impaired. It is even intimated that the naval officers there may be withdrawn.

## Offerings of Bonds.

WASHINGTON, April 22.—The offerings of 3 and 4 per cent bonds under Secretary Shaw's refunding circular today were \$5,22,300, bringing the total to date up to \$41,672,450.

## Stimulation.

"Be a good boy," said Uncle John, "and maybe you will grow up you can be President."

"Is that so?" answered Willie excitedly. "And ride on the engine? Gee, you bet I'll be good!"—Buffalo Express.

## FIGHT WITH SOMALIS.

British Lose Two Hundred Men and Ten Officers at Mayilodo.

BY THE ASSOCIATED PRESS—P.M.

WASHINGTON, April 22.—[By Atlantic Cable.] A report has been received here that a skirmish has occurred at Mayilodo, forty miles from Shilao, in which 200 men and ten officers of the British force were killed. The Somalis losses are not known.

## Green's August Flower.

It is the most popular remedy on the globe for the cure of all stomach, rheumatic, liver troubles and habitual constipation.

We advertise as true in the newspapers all over the United States for any case gives satisfaction. Only three cases of failure in thousands of letters; two of these were cancer of the stomach.

## ESTERHAZY THE CULPRIT.

So Says Dreyfus Demanding New Trial.

He Calls for Vindication and Long Delayed Justice.

Letter that Promises to Cause Tremendous Agitation in French Capital.

BY THE ASSOCIATED PRESS—P.M.

PARIS, April 22.—[Exclusive Dispatch.] Alfred Dreyfus has submitted to Minister of War Andre a lengthy letter in which he asks for a reopening of his case by means of an investigation by the Minister, as the supreme head of military justice. The letter, which is dated Paris, April 21, confirms the reports that Dreyfus has been living quietly here for some time. It promises to cause a tremendous agitation among the various elements of the political groups for and against Dreyfus. The first part of the letter is an earnest plea that the court which condemned him as Rennes has improperly influenced, first, by the amateur doctor, as ascended to Emperor William, and, second, by the witness of one of the witnesses, Czernuski.

After arguing on the extent to which these contributed to his condemnation, Dreyfus recalls in graphic terms the long series of horrors to which he was subjected.

The letter throughout is couched in a highly-dramatic style, which is likely to make it one of the notable papers of the case. It refers to Esterhazy as "one who stands before the entire world as the culprit."

One of the most striking passages showing the rhetorical style is as follows:

"I will not recall, Mr. Minister, what I have endured since 1894. Picture to me the horrors of a soldier whose wife left him, deserted him, to follow his wife, to Emanuel Buxbaum, and Miss Loeb, his daughter, the daughter of Mr. and Mrs. Loeb, a Habsburg, to Percy Eppenstein; Miss Lizzie E. Carlis, the contralto, to John J. Patton of the Board of Trade.

MARRIAGE INDUSTRY SAFETY.

BY THE ASSOCIATED PRESS—P.M.

LANSING (Mich.) April 22.—[Exclusive Dispatch.] The House today killed the bill aimed at abolishing the marriage industry at St. Joseph.

WEDDING AT MANTENO.

BY THE ASSOCIATED PRESS—P.M.

MANTENO (Ill.) April 22.—[Exclusive Dispatch.]

MANTELLO.

BY THE ASSOCIATED PRESS—P.M.

PARIS, April 22.—[Exclusive Dispatch.] John Johnson, aged 72 years, and Mrs. Emily F. Johnson, aged 57, closed from Alpha today and were married here. The couple were separated for 25 years and once before tried to escape vigilante relatives, but failed. Johnson's wife died three years ago, and his sons at Rio and New Boston, and a daughter in Iowa were much opposed to his marrying again.

WAUKEEHA SOCIETY AGITATED.

BY THE ASSOCIATED PRESS—P.M.

MILWAUKEE, April 22.—[Exclusive Dispatch.] Newton Booth Tarkington, author and legislator, is seriously ill at his home in this city with marked symptoms of typhoid fever. It will take a day or two to determine the precise nature of his illness, but meantime every precaution is being taken.

AGED ELOPERS.

BY THE ASSOCIATED PRESS—P.M.

GALESBURG (Ill.) April 22.—[Exclusive Dispatch.] John Johnson, aged 72 years, and Mrs. Emily F. Johnson, aged 57, closed from Alpha today and were married here. The couple were separated for 25 years and once before tried to escape vigilante relatives, but failed. Johnson's wife died three years ago, and his sons at Rio and New Boston, and a daughter in Iowa were much opposed to his marrying again.

for the referee.

**NATIONAL LEAGUE GAMES.**

**BOSTON** IN TWELVE INNINGS.

**BY THE ASSOCIATED PRESS—P.M.**

**BOSTON**, April 22.—It took Boston twelve innings to beat Philadelphia today. Tenney was put out of the game in the tenth inning for disputing a decision. Attendance, 18,632. Score: Boston 2; hits, 11; errors, 6.

Philadelphia 1; hits, 9; errors, 3.

Batteries—Cooper and Lohman; Hodson and Leahy. Umpire—Levy.

**PACIFIC COAST LEAGUE.**

**SAN FRANCISCO** WHITEWASHED.

**BY THE ASSOCIATED PRESS—P.M.**

**SAN FRANCISCO**, April 22.—The Oakland and San Francisco game today was a battle between pitchers, in which Cooper was more effective. Besides striking out seven men, he allowed only three scattered hits. Score: Oakland 1; hits, 6; errors, 1.

San Francisco 0; hits, 0; errors, 0.

Batteries—Loucks and Stanley; Damman and Zalusky. Umpire—Mahaffey.

**NATIONAL LEAGUE GAMES.**

**BOSTON** IN TWELVE INNINGS.

**BY THE ASSOCIATED PRESS—P.M.**

**BOSTON**, April 22.—Today was disastrous for favorites at the start. Grail, winner of the last and the nearest to a first choice, as she was played down to while Hermencia, the first choice, was put out of the game in the tenth inning for disputing a decision. Attendance, 18,632. Score: New York 7; hits, 12; errors, 1.

Brooklyn 2; hits, 6; errors, 6.

Batteries—McGinnity and Warner; Evans and McManus. Umpire—Moran.

**CINCINNATI-CHICAGO.**

**BY THE ASSOCIATED PRESS—P.M.**

**CHICAGO**, April 22.—The home team was defeated at the opening game of the season here today because of the inability to hit Harper. Attendance, 22,000. Score:

New York 3; hits, 5; errors, 1.

Chicago 1; hits, 6; errors, 2.

Batteries—Taylor and King; Harper and Peitz.

**AMERICAN LEAGUE GAMES.**

**CHICAGO** WALLOPS ST. LOUIS.

**BY THE ASSOCIATED PRESS—P.M.**

**ST. LOUIS**, April 22.—St. Louis got off to a bad break in the opening game of the season today with Chicago. Attendance, 3,600. Score:

St. Louis 1; hits, 10; errors, 4.

Chicago 14; hits, 16; errors, 2.

Batteries—Kahoe; Flaherty and McFarland.

**WASHINGTON-NEW YORK.**

**BY THE ASSOCIATED PRESS—P.M.**

**WASHINGTON**, April 22.—The huge crowd at the opening game necessitated a ground rule. Attendance, 11,900. Score:

Washington, 3; hits, 6; errors, 3.

New York 1; hits, 6; errors, 2.

Batteries—Orth and Clark; Chesbro and O'Connor.

**DETROIT-CLEVELAND.**

**BY THE ASSOCIATED PRESS—P.M.**

**DETROIT**, April 22.—Detroit won the opening American League game from the Cleveland team before the largest crowd that ever saw a game here, in spite of the intense cold. Attendance, 16,400. Score:

Cleveland 2; hits, 7; errors, 3.

Detroit 1; hits, 7; errors, 2.

Batteries—Mullin and McAllister; Joss and Phillips.

**PHILADELPHIA-BOSTON.**

**BY THE ASSOCIATED PRESS—P.M.**

**PHILADELPHIA**, April 22.—Mayor Weaver officiated at the American League opening here by marching across the field with the players unfurling the championship pennant and throwing out the first ball. President Johnson witnessed the game. The Champions won by timely hitting. Attendance, 13,500. Score:

Philadelphia, 6; hits, 12; errors, 2.

Boston, 1; hits, 10; errors, 2.

Batteries—Waddell and Schreik; Shannon and Farrell.

**AMERICAN ASSOCIATION GAMES.**

**BY THE ASSOCIATED PRESS—P.M.**

**CHICAGO**, April 22.—The following were played today:

At Kansas City—Kansas City, 8; Minneapolis, 4.

At Toledo—Toledo, 6; Columbus, 2.

At Louisville—Louisville, 2; Indianapolis, 4.

At Milwaukee—Milwaukee, 10; St. Paul, 7.

New York 1 0 1 .000

**SHAMROCKS COMING OVER.**  
WILL THEN CONTINUE TRIALS.  
BY DIRECT WIRE TO THE TIMES.  
NEW YORK, April 22.—[Exclusive Dispatch.] Challenger Shamrock III and Shamrock I will both be seen in American waters this year. Sir Thomas Lipton, after consultation with Designer Fife and Ward, of the firm of Denny Brothers, builders of the challenger, decided to send both his boats to America. This will permit the Shamrock I being used as a trial horse for Sandy Hook, and the challenger will be able to make up the time lost on this side by her recent dismantling. At the conference, it was thought best to complete the tuning-up of the challenger in American waters in conditions under which she will sail for the America's cup.

It is believed that the contemplated trials in Belfast, though now abandoned, and the remaining programme here will consist of only a few spins on the Clyde, after the challenger is refitted for the purpose of stretching her canvas and testing her new gear. Then the boats will start for Sandy Hook, where a series of exhaustive trials will be made. Messrs. Fife and Ward will survey the challenger today to assure themselves that her hull is not injured. There is not the least reason to suppose that it is. A tug has been chartered to tow the Shamrock III to the Clyde, and she will start Friday morning, if the weather is favorable.

**PACIFIC NATIONAL LEAGUE.**

**FRISCO WINS FROM HELENA.**

**BY THE ASSOCIATED PRESS—P.M.**

**SAN FRANCISCO**, April 22.—The home team made seven runs on as many hits in the first two innings today, and after that had an easy time. It was a hard-hitting game.

Score:

San Francisco 5 2 3 1 0 0 1 x 12

Hits, 17; errors, 2.

Helena 0 0 0 1 1 0 0 0 2

Hits, 12; errors, 4.

Batteries—Pfeifer and Zearfoss; Purcell and Carischek. Umpire—Warner.

**SEATTLE-SPOKANE.**

**BY THE ASSOCIATED PRESS—P.M.**

**SEATTLE** (Wash.) April 22.—Young Loucks pitched just as good ball today as the veteran Damman, and he was given faultless support in the field. Both pitchers had fine control, and the fielding was excellent. Score: Seattle 1; hits, 0 0 1 0 0 0 0 x 3

Hits, 7; errors, 2.

Spokane 0 0 1 0 0 0 1 0 0 2

Hits, 9; errors, 1.

Batteries—Loucks and Stanley; Damman and Zalusky. Umpire—Mahaffey.

Second Bride Tells  
Story of Courtship.  
Lovers Come West to Escape  
Further Notoriety.

News of Famous Olin Castle-Jessie  
Morrison Case Shifts from Eldorado,  
Kan., to Long Beach, Cal.—Sees Happy  
Times Together in Seclusion by the  
Sea.

A youth of 26, whose name a few  
years ago was in the news,  
lives in nearly every city, town and  
village in the United States, because  
he was one of the three chief  
men identified with the shocking  
murder of his young wife, a bride of  
a few days, in the State of Kansas.  
He was married in Long Beach last  
afternoon to a girl of 22, whom he  
cannot mention the names of.  
Morrison and Olin Castle to any  
newspaper, without eliciting the quick  
retort, "Oh, I remember all about that."  
The newspapers were full of it  
then.

The youth of 26 is Olin Castle, husband  
of the murdered bride. He is the  
son of Long Beach last Friday to an  
engagement address, Miss Lillian de  
Talent, aged 22, late of Eldorado,  
Kan.

The ceremony was performed  
at the residence of Dr. Adelbert  
Episcopal Church, and was  
witnessed by the pastor's  
wife, the mother of the groom and Dr.  
Morrison, a Long Beach musical  
theater manager, a bridegroom  
to a girl of 22, and no wedding journey.  
It was the quietest of nuptials and  
directly concerned hoped that  
these precautions would be sufficient  
against newspaper notice  
of the wedding.

It is the name of Olin Castle  
that we have to thank for the  
success of the marriage. She  
will pay higher wages  
and double always will be—in  
spite of the name of Olin Castle  
that we have to thank for the  
success of the marriage.

She is to recall the name of Jessie  
Morrison, and with the latter name  
and double always will be—in  
spite of the name of Olin Castle  
that we have to thank for the  
success of the marriage.

that she had succeeded in wresting the  
weapon from Mrs. Castle's hands, and  
had killed her in self-defense.

The case, however, became one of the  
most widely noticed in the criminal  
annals of this country.

Miss Morrison and the young woman  
who became Olin Castle's bride were  
employed in the same music store in  
Eldorado, Kan., Olin Castle as a  
clerk. It was claimed in the trials that  
Olin Castle had been very attentive to  
Miss Morrison, who was ten years his  
senior, and that he had hit her in  
favor of the girl he married just  
before the marriage. In contradiction  
it was claimed that Jessie  
Morrison had wooed Olin Castle, and  
that he had been at some trouble to free  
himself of her advances. One point, at  
least, was agreed upon in the trials,  
namely, that Jessie between the two  
women, or on the part of one of the  
two women, led to the slaying of Olin  
Castle's bride.

At the second trial of Jessie Morrison  
on the charge of murder, Mrs. Castle,  
a traveling man testified that he had  
seen and heard Mrs. Castle call Miss  
Morrison into the Castle residence  
a few minutes before the killing.  
Miss Morrison was subsequently arrested  
on the score of this testimony and con-  
victed of perjury.

PROSPEROUS INSTITUTION.

Broadway Bank and Trust Company  
Elects New Directors and Will go into  
New Quarters.

The Broadway Bank and Trust Company  
will next month remove to large  
new quarters in the Bradbury Block,  
adjoining its present location on the  
south. The rooms have just been vacated  
and the remodeling will begin at  
once. They have a frontage of fifty  
feet and a depth of 150 feet, which will  
give to the growing institution floor  
space at least equal to that of any bank  
in the city.

It will be elaborately and elegantly  
fitted up in mahogany and the new  
fittings are now being specially man-  
ufactured in the East. The bank has  
recently increased its capital stock  
from \$1,000,000 to \$250,000, its remaining  
500 shares of treasury stock having  
been sold at \$140 per share. The bank  
has also a surplus and undivided prof-  
its amounting to \$70,000.

At a meeting of the Board of Directors  
yesterday, Col. W. C. D. Durfee,  
who recently came to Los Angeles from  
Bozeman, Mont., and made investments  
here, and R. C. Gillis, a well-known

## INDUSTRIAL UNCERTAINTY.

*Labor Unions in Threatening Altitude.*

*May Interfere With Many Lines of Industrial Enterprise.*

*Lessons of the Past Not Likely to Be Heeded on the Coming May Day.*

By Edward S. Little.

*SPECIAL CORRESPONDENCE OF THE TIMES*

WASHINGTON. April 19.—It is many years since American industry faced May Day with such great uncertainty regarding the labor situation as at present. By custom the first day of May is the day when labor troubles become most acute—it is the day upon which labor, without consulting capital, settles whether there shall be a summer of industrial peace or a summer of industrial war like the war that occurred in the coal fields of Pennsylvania last summer. The appearances at the present time all point toward a period of industrial violence—the storm centers of labor were never so widely distributed, and the restlessness of the unions was never so great, on the surface, as now. With the exception of the coal business, there is hardly a great industry in the United States that is not threatened with the paralysis that comes from a labor strike. The cotton mills of New England are already in the war. Who cannot remember the last great strike in those mills? It was about five or six years ago. At the time that strike started there were in the great South very few cotton mills. The strike drove cotton manufacturers by dozens to the South to establish mills. They went there because the South was then—and it is yet—comparatively free from labor unions. It proved a boon to the cotton mill proprietors, disaster to New England. And this was the third severe lesson that New England had been taught. The other two were when she lost the tanning business, to a great extent, because the manufacturers of leather insisted upon conducting their business in their own way. As a result of that fight the great tanneries of Peabody, Salem, Haverhill and other places are rotting, untenanted, while the tanning is being done in the West. That *bombarde* happened about fifteen years ago. Then, some ten years ago, came the great strike in the New England shoe factories. Plant after plant was abandoned, and moved to the West and Northwest, and while Lynn and Brockton are still cities of shoe, future growth in both of them has been ruined by labor troubles. Where one has been built in the last six years, one has been closed, at least, and where one has been built and one closed the record ought to have been twenty new ones erected.

Taking the East generally, the agitation for strikes is similarly appealing to American industry. There are elevated railway system in New York City is threatened with a shutdown. That would leave the Metropolis of the New World stalled in its tracks, unable to provide the needed supplies, and there are adequate transportation facilities in New York today, with the several elevated lines in full operation, and working night and day to their full capacity. On a broader scale, the structural engineers of the country have started a strike, and as the latter is being written, a statement of that union has issued a statement boasting that already, although the strike is not anywhere near under way, his union has crippled building operations in the cities stretching from the country from San Francisco to New York. This blow to building operations has fallen when the country is putting up more steel buildings than ever before. In Washington, even, there is a building boom, and new buildings to the value of several millions of dollars are being put up, where there is less demand for great office and business buildings than in any other city of its size in the country. This blow comes when the great industrial centers are practically undermined by the work of making foundations for new buildings. Manhattan Island looks like a place where cave dwellers live, for the excavations that are under way for new buildings. This must stop for an indefinite period, because the workers are not interested from their work by the union, and because, even if they are perfectly satisfied with their pay and hours, they dare not work after being ordered to stop.

The boiler makers are threatening to tie up shipbuilding if the demands of the men are not met. This is not a real item: The union labor of the city of New York will stop drinking certain brands of beer if the brewers of those brands of beer do not hereafter and forthwith buy the horses that haul the barrels from the breweries to the saloons sold with union shoes. This stupendous matter of ethics and high moral principle has been formally laid before the various unions by the Horseshoers' Union and the Central Federation of Labor of the city of New York and instructed a delegation to smoke demands upon the brewers. Let any American citizen who labors at a trade and drinks any beer that he gets hold of, or no beer at all, gaze upon that picture and contemplate the indecency of such a demand. He will drop into a saloon at the end of a day's work to ask if the horses that hauled his favorite beer to the saloon were sold with union shoes.

It is considered improbable that the strike will spread through the spring and early summer without trouble on some of the lines. Labor leaders who have been in Washington during the winter, say that the chances are that there will be a great railroad strike within the next few months, and that if it starts it will go all the way to the finish on all of the roads. There is plenty of material for an outbreak of railroad strikes in the conditions obtaining in New England and in the Middle West, but if there is to be trouble, it will start in the West, and prefer to see it start in the West, where the fight would immediately broaden out to affect all of the roads doing a transcontinental or semi-transcontinental service. This would take in nearly all of the great roads of the country.

All Roads Lead to Bartlett's. Hundreds of Weber, A. R. Shaw, Kimball and other pianos at wholesale. Open evenings.

### ASSEMBLY DELEGATES.

*Additional Names of Persons Elected as Commissioners to the General Assembly.*

California—Rev. Alfred H. Edsco, Sonora; N. W. Miller, Oroville. Colorado—Rev. J. J. Pardor, Trinidad; David Morford, Pueblo. Georgia—Rev. G. E. Dossen, Cenger; A. B. Fortune, Rome. Illinois—Rev. C. S. Davis, Fairbury; Rev. Henry Love, Philo; E. O. Chester, Champaign; E. S. Cunningham, Mansfield; Rev. R. Cameron Townsend, Dunlap; Rev. Charles T. Phillip, Princeton; Rev. Daniel Breeze, Shawneetown; O. D. Thompson, Gallatin; Robert Peett, Puckneyville; Rev. W. Francis Irwin, Charles G. Gray, Springfield.

Indiana—Thomas N. Gossard, Orleans; Rev. John S. Hawk, Jeffersonville; John R. Simpson, Paoli; James Officer, Volga; Rev. William Henry Oxford, Munice; Benjamin Wilmett, Winchester. John F. Hinkhouse, Audubon; E. F. Houghland, Council Bluffs. Kansas—Dr. William N. Page, Leavenworth; Dr. J. D. Countermeire, Topeka; Samuel C. Miller, Topeka; John S. Todd, Topeka; Rev. S. W. VENTURA COUNTY.

*CHUNK TAKES WRONG DOSE*

*SPECIAL CORRESPONDENCE OF THE TIMES*

VENTURA. April 22.—Soo Hoo On, a middle-aged Chinese, accidentally killed himself in Chinatown last evening at about 8 o'clock by taking a dose of strychine for a dose of medicine, which he had been taking for sickness. He was lying down at the time mentioned, and reached from his bunk up to the medicine, which he gulped down. Immediately he felt the action of the poison, but had time to know he had made a mistake, and he got out of his bed and to his shanty door and began firing his pistol. He fired three or four shots into the air to attract attention and get help, but before any one could reach him he was writhing in death agony and beyond aid. This is the story told by a fellow-Chinese, a cook at the Rose Hotel. The Coroner today held an inquest upon the remains with a jury, and it was ruled very much as if Dr. Ellis' name was put forth as a protest, for he could not tell where Dr. Ellis' name was put forth, and all those who had been mentioned in connection with the candidacy for president withdrew their names, and it now looks very much as if Dr. Ellis would be elected by acclamation tomorrow afternoon.

*DEATH OF A CHINMAN*

*SPECIAL CORRESPONDENCE OF THE TIMES*

SANTA BARBARA, April 22.—The use of the surgeon's knife as a preventive measure was recommended today at the convention of the California Medical Society, now in session in this city, by Dr. C. N. Ellington, professor of medicine of the Cooper Medical Institute in that city. Dr. Ellington delivered his lecture before a large body of physicians who were present from all parts of the State, announcing the text of his subject as being "Surgery in Its Relation to the Restriction of Crime," and including in his arguments the therapeutic use of vasectomy in certain mental diseases, and the use of sterilizing crime to reduce the number of criminals.

A bitter controversy is raging between the District Attorney and the Coroner over the fees of the latter. At the last meeting of the Board of Supervisors the bills of the Coroner for mileage and hire of a stenographer were held up on the advice of the District Attorney. The bills aggregate something over \$100. The Coroner's attorney, Robert Clarke, has been making the best fight possible for his client, but he has not yet been able to get the District Attorney to recede from his position that the mileage and stenographer is personal to the Coroner.

MINES AND MINING.  
COVER UP GUILT  
IN CALIFORNIA-NEVADA.MINING FAKERS SCHEMING  
TO ESCAPE PUNISHMENT.

Held Warm Session and Will  
Statement, But Stockholders  
Not to Be Called Together—Com-  
Officers Very Reticent.

Leaders of the California-Nevada  
company, the widely-advertised  
quick concern whose daring  
surprised the conservative element  
of the mining world for some time past,  
a day yesterday. A meeting  
which lasted several hours, and  
at times was not all peace and  
quiet, occupied the attention of the  
but the disclosures that are ex-  
posed to throw light on the affairs of  
any were not forthcoming.

Leaders of the concern who are  
awaiting for light have, how-  
ever, promised a "full and com-  
plete" and this is now being  
done.

of the company are reluctant  
to the situation, but declare  
they are able to correct many false  
that have been formed  
the company and its prop-  
erty, they will also be able  
many of the claims made  
attempt to conceal the fact  
as sold under misrepresenta-

also be allowed the men on company  
time, or, in other words, the men must  
work but eight hours, and that the  
mines must treat with a committee of  
the union. The superintendents of all  
the companies met and resolved to fight  
it out to the end. They will not recog-  
nize the union, nor will they treat  
with its committee.

The strikers drove out the mill men  
at the new Kennedy mill yesterday.  
There is still about fifteen hundred  
of men in its bins to be crushed.  
The old Kennedy mill is still run-  
ning, being the only one of the  
engineers of the three Kennedy shafts  
have been drawn off and the shafts are  
rapidly filling with water, which  
will do great damage. Engineer Brown  
and his wife are quite. The strikers  
made a demonstration near the  
house and frightened Mrs. Brown so  
that she became ill that Mr. Brown  
compiled with her entreaties and quit.  
The remaining two engineers are keep-  
ing the mine dry. Engineer Joe Kay  
of the mine said his wife he could  
sleep at the mine as she would  
aridize her safety, but she would have  
none of it. It is reported that she  
invested in a firearm and it is given  
out that she is a crack shot, so it is  
natural that at the Kay home. Mrs.  
Kay says her husband is a  
man can citizen, wants to work, is  
satisfied with his wages and hours, that  
the present strike is not to better his  
condition, but the men underground,  
and the men the hooded country of  
the free husband cannot get pro-  
tection from the law officers we  
furnish it herself.

A crowd of Austrians and Italians  
intercepted Engineer Evans at the  
Oneida and told him he could not  
leave unless he got a passport  
from the union. Evans said:

"If I was in Austria or Italy I  
might have to travel on a passport."

PRESIDENT MCKELVEY AT HIS DESK.

action, but the fixing of the responsibil-  
ity, not so easily disposed of.  
As now, the miners and attempt  
will be made to let the guilty party or  
parties down as gently as possible, and  
apply a coat of whitewash that will  
cover up their transgressions.

The documents being prepared, and  
which will be made for circulation in  
a few days, will, it is said, give a complete  
detailed accounting of the property of  
the company, and will embody a sug-  
gestion for reorganization. The present  
expenses are estimated at \$4,000,000, and an effort  
will be made to reduce this to \$1,000,000.

It is now stated that a general meet-  
ing of the stockholders will not be held  
at first planned, as the management is  
considered that it will be able to make a  
detailed accounting. It was re-  
ported yesterday that the reorganization  
of at least one director was in the hands  
of the secretary, and that others were  
expected.

## MINERS' STRIKE.

LONG WAY FROM SETTLEMENT.  
BY THE ASSOCIATED PRESS-P.M.

WHITE CREEK (Cal.) April 22.—The  
mine strike here seems a long way  
from settlement. At a meeting of all  
the superintendents here last Saturday,  
it was agreed to concede the first  
demands of the miners, but to have no  
discrimination against union men.

The miners are willing to work for  
less than the ten-hour shift, but  
they are to receive eight hours pay for  
the time they work. The miners  
want the men half way and reduce  
the ten-hour shift to nine hours. Some  
of the miners here work eight hours, and  
one hour was to be conceded to them.

The miners were to be conceded  
the ten-hour shift, but to be  
satisfactory to all. Thus, it will be  
seen that the miners conceded one and  
one-half demands out of three, or in  
other words the strikers got half of  
what they wanted.

The conservative miners all appeared  
sufficiently satisfied with this settle-  
ment, and when Superintendent Mc-  
Keehan submitted it to his  
superintendent, he accepted it unanimously. It  
is agreed by the miners that in the  
employment of the miners, they  
would submit it to their  
superintendent, and if it was  
satisfactory to all, then the miners  
conceded one and one-half demands out  
of three, or in other words the strikers got half of  
what they wanted.

HERE AND THERE.

The annual county Teachers' Insti-  
tute convened here today. It is con-  
ducted by Job Wood, Deputy State Su-  
perintendent of Public Instruction. One  
of the features was an address on in-  
dustrial education by Prof. LeRoy An-  
derson, the president of the Califor-  
nia Industrial Education Association.

Dr. J. P. McCarthy and Miss Irene  
Moreno were married today.

Yesterday morning E. W. Brown  
and Miss Margaret McHenry, well-  
known local society people, were mar-  
ried and left for a tour of Northern  
California.

The City Council has passed resolu-  
tions of intention to pave Garden and  
Chorro streets with bituminous rock.

Fern, the ten-year-old daughter of  
H. B. Moore, at Winslow, Ariz.,  
and was buried here today.

A baseball club has been organized  
here, composed of the best talent in  
the county.

The millinery store of Miss Jose-  
phine Pollard was burglarized of a  
sum of money.

Mr. A. Dennis of Los Angeles is the  
husband of her nephew, W. S. Templeton.

Mr. G. P. Richardson left yester-  
day for Frankfort, N. Y.

also be allowed the men on company  
time, or, in other words, the men must  
work but eight hours, and that the  
mines must treat with a committee of  
the union. The superintendents of all  
the companies met and resolved to fight  
it out to the end. They will not recog-  
nize the union, nor will they treat  
with its committee.

The strikers drove out the mill men  
at the new Kennedy mill yesterday.  
There is still about fifteen hundred  
of men in its bins to be crushed.  
The old Kennedy mill is still run-

of the mine said his wife he could  
sleep at the mine as she would  
aridize her safety, but she would have  
none of it. It is reported that she  
invested in a firearm and it is given  
out that she is a crack shot, so it is  
natural that at the Kay home. Mrs.  
Kay says her husband is a  
man can citizen, wants to work, is  
satisfied with his wages and hours, that  
the present strike is not to better his  
condition, but the men underground,  
and the men the hooded country of  
the free husband cannot get pro-  
tection from the law officers we  
furnish it herself.

A crowd of Austrians and Italians  
intercepted Engineer Evans at the  
Oneida and told him he could not  
leave unless he got a passport  
from the union. Evans said:

"If I was in Austria or Italy I  
might have to travel on a passport."

THE OIL INDUSTRY  
SPHALT REFINERS  
ESTABLISH JOINT AGENCY.TO MARKET PRODUCT OF STILLS  
THROUGH ONE CHANNEL.

Flow of Seepage Oil Found Near San  
Pedro—Progress of Operators in Kern  
River Field—Complete Plant of Mex-  
ican Petroleum Company.

The principal asphalt refineries of  
the State have established a sales  
agency which will be known as the  
Asphaltum Sales Agency, with head-  
quarters in San Francisco. The new  
agency will have the backing of the  
Union Oil Company and will be under  
the management of John Baker, Jr.,  
who is also manager of the manufac-  
turing and sales department of the  
Union Oil Company of California.

The agency is the outcome of the for-  
mation of the asphaltum combination,  
which went into active operation a few  
months ago. It embraces the principal  
refineries of the State and was organized  
for the purpose of establishing uniform  
grades and the promotion of the  
more general use of asphaltum.

Arrangements have been completed  
for the opening of the new sales  
agency. Offices have been secured in  
the Mills Building in San Francisco,  
and at a recent meeting of the refiners,  
who have pooled their interests, a  
new schedule of rates was adopted. For  
the present the ruling prices are as fol-  
lows: D grade asphalt, \$1. C. grade  
\$1.25. E grade, \$1.50, and liquid oil, \$1.50.  
These prices are for a ton of 2000  
pounds, gross weight, no tare allowance.

SEE PAGE AT SAN PEDRO.

San Pedro is properly excited over the  
discovery of a flattering indication of  
oil within a few miles of its business  
center, and there's prospect of a re-  
vival of interest in oil matters.

It is now reported that a good flow  
of seepage oil was found coming from a  
small opening in the bluffs about one  
hundred yards south of the govern-  
ment reservation. This find was made  
this week by James Olsen. The hill-  
side was partly caved in where the oil  
was flowing and was quite near the  
main bluff.

One believes if a well is sunk upon  
the spot a rich find will be made. The  
oil is thick, and there are other evi-  
dences that would indicate the pres-  
ence of an oil-bearing stratum of im-  
portance.

KERN RIVER PROGRESS.

Operators in the Kern River field are  
busy these days, and reports from the  
various camps show that satisfactory  
progress is being made.

The Associated Oil Company is  
among the foremost in new work. It is  
ringing up for well No. 10 on the  
nearby Whitton tract, and has No. 9  
nearly completed.

The Columbian company, on section

29, has completed well No. 5, bringing  
in another splendid producer.

The Hart Crude Oil Company is  
building a road to its camp and is  
pioneering out on the ground for more  
tanks. The company has two wells, one  
pumping steadily.

The Peerless Oil Company, section  
29, 28, 28, has two rigs up for further de-  
velopment work.

The Del Rey is down about five ship-  
ped feet on well No. 6.

NESTOR TO BEGIN.

Articles of incorporation of the  
Nestor Oil Company were filed in San  
Francisco yesterday. The company has  
extensive holdings of lands and many  
options in the neighborhood of Nestor.  
The directors are: A. H. Thompson,  
Thelan, F. H. Samborn, J. A. Samborn,  
T. S. Kelett, S. K. Williamson and  
George Putterbaugh. All save J. A.  
Samborn are San Diego and National  
City men. The capital stock is \$50,000.

ON 'CHANGE.

BUSINESS WITHOUT FEATURE.

There was no feature to the trading  
on the Stock Exchange yesterday, and  
only a fair amount of business trans-  
acted.

## THE CITY IN BRIEF

## NEWS AND BUSINESS

Thrashed a Motorman.

J. J. Thornton, who conducts a livery stable at Twenty-second street and Central avenue, was arrested yesterday afternoon on a charge of assaulting a street car motorman.

"Our New Minister."

The sale of seats opens this morning at the Los Angeles Theater for Dennis Thompson's latest pastoral play, "Our New Minister," which will be produced for three nights and Wednesday matinee, beginning next Monday.

Investigation.

The United Investment Company sells to Lester Patterson of Mankato, Minn., through Corylou & Whitcomb, 1626 173 feet, on the west side of Grand avenue, 120 feet south of Fourth street, with a six-room cottage and barn, consideration named, about \$39,000.

Liquid Air Benefit.

A lecture and demonstration on liquid air will be given at the Los Angeles Theatre by Prof. E. H. Bobrick for the benefit of H. D. Wattis, a scientist in distress. Prof. Bobrick is learned in the wondrous new discovery, and the entertainment is said to be instructive and amusing.

Talk to Working Boys.

At the Young Men's Christian Association, last evening, George W. Parsons, the mining expert, gave a talk full of interest to the 135 working boys and young men gathered for the about mining and the miners' experiences. The working boys will organize a debating club on Friday evening.

Sheep Men Restrained.

A temporary restraining order was granted yesterday by Judge Wellborn to keep Alfred Blesingame, Desire Villard and John Bidot, sheepmen, from grazing their flocks on the Sierra forest reserve pending the continuance of proceedings brought against them Tuesday by the United States Attorney here.

Inquest Today.

An inquest will be held by the Coroner at 2 o'clock today on the body of E. H. Penniman, the conductor of the Los Angeles Railway Company, who was caught between two cars and fatally injured Tuesday night. The death of the man is believed to have been due to either his own or somebody's gross carelessness, and the Coroner will thoroughly investigate the case.

Brought Back for Trial.

Deputy Sheriff Cochrane returned from San Francisco yesterday having in custody Chester A. Sullivan, who was arrested in that city several days ago on a charge of embezzlement at the expense of the Los Angeles police. Sullivan was employed as cashier in Alexander's meat market near the corner of Adams and Main streets. He is alleged to have collected about \$150 and fled from the city.

Refused Concert Prizes.

The winners of the first, second and third prizes drawn for at the Gertrude Cohen concert, Tuesday evening, have refused to accept the money as being instrumental in their donation. The numbers will therefore be redrawn at 10 o'clock this morning at Birkel's music store under direction of Mrs. John Singleton and three prominent citizens, and the new winners will be notified. The fourth prize, valued at \$150, was won by Florence Gilmore, No. 4207 Vermont avenue.

"Around the World" Today.

The "Trip Around the World," which has long been in preparation by the ladies of St. Mary's Guild of Christ Church, takes place today. The places to be visited are San Francisco, at the home of M. W. D. Woolwine; Japan, at the home of Mrs. H. H. Herron; Turkey, at the home of Mrs. J. T. Jones; Ireland, at the home of Mrs. E. W. Britt, and Paris, at the Woman's Club House. The "Trip" will take most of the afternoon and evening.

Peached on His Pal.

M. C. Fennell, who appears to be a bozo, was arrested in the river bed yesterday for drunkenness. Charles L. Dives Benedict and Shearon, who at the same time took in G. S. Cappa as a suspect, later as a result of disclosures made by Cappa, he was released and the charge against Fennell changed to that of petty larceny. Cappa told the officers that Fennell had stolen a watch yesterday morning at the Windsor rooming-house on East First street. The watch was found in his possession, and last night H. Coburn appeared at the Police Station and identified the timepiece.

Faking Beggar at Large.

Complaint comes from Pico Heights of a beggar who preys on credulous housewives under false pretenses. The man limps slightly and walks with a cane, claiming to be a letter carrier crippled in the service. To make his story good, he pretends to people to their postman, T. M. Barrows, and Barrows has been overwhelmed with inquiries from people who have aided the beggar. Barrows declares he does not know the man at all, and desires to warn the neighbors of the fellow's false pretenses. To cover his tracks, the beggar carries a small satchel with tiny bars of soap, for which he asks 25 cents. When refused money the beggar often grows abusive and threatening.

Cargill's Light Sentence.

Daniel Cargill, convicted in the Federal courts of stealing three registered letters from the United States post office at Bakersfield, who was a clerk, was sentenced yesterday by Judge Wellborn to one year in the County Jail at Santa Barbara. The young fellow, who comes from a good family in Georgia, considers himself most fortunate in the light sentence he received through the leniency of Judge Wellborn, who was moved by the boy's youth and penitent bearing, and of United States District Attorney Whittaker, who moved the dismissal of the other charges which the government held against the prisoner. The latter was taken to Santa Barbara yesterday afternoon by Deputy Marshal Traeger.

Beverd Accepts U.S. Presidency.

There was little business transacted by the Executive Committee of the Board of Trustees of the University of Southern California at the meeting held yesterday in University auditorium. Dr. George F. Boardman formally accepted the presidency of the institution, and a committee, with Dean Randall as chairman, was appointed to arrange for the commencement exercises, which will be held June 1. There was much discussion as to the future policy of the school, but no definite action was taken. Dr. Boardman has recently returned from the north, where he has been examining the methods of some of the large institutions in order to more intelligently administer the affairs of the school over which he has been chosen to preside.

The Main Street Blockade.

The eviction of the traveling public from Main street between Second and Fifth streets, was accomplished yesterday by Huntington's big crew, which is now engaged in gridironing that thoroughfare with "third" rails. The west side of Main street between the points named was nominally open to travel, but for the large crowds it was impossible. None, but a horseman could have made his way through. All the night before guests occupying

front rooms in the Van Nuys and Westminster Hotels were made more or less miserable by the incessant banging of the army's weapons of toll upon rails and cement, and during the day an impossible crowd was to be seen between these two hostelleries, such was the onslaught of workmen. Today the asphalters will follow down the new tracks. All cars that ordinarily traverse Main street have been running on Spring street since Sunday.

Second "Practical Talk."

In the second of the "Six Practical Talks" in the "C. C. C. series" was given last night by George W. Parsons, mining expert, on "Mining Experience." A good-sized audience of young men was present, and the lecture was thoroughly enjoyed. Friday evening the series will be given for practical study along the lines of this course. The next talk will be given April 29 by Royal H. Crist, on "Electricity."

Procesus Again Indicted.

Maximilien Barron, the accomplice of Jules Dallagliovanni in the prostitution of the Parisian girl, Adolphe Barron, has been indicted for the second time by the Federal grand jury. Barron is tried for the second time on a technicality, but the United States District Attorney has prepared a new complaint so framed as to allow her little chance to escape the punishment which she evidently deserves. She is in the County Jail, in default of the \$500 bail demanded.

BREVITIES.

You will have a delightful time if you do not take the "Trip Around the World" Thursday, April 23, given by the ladies of Christ Church, "steamer" leave "San Francisco" (W. D. Woolwine residence, No. 9 Park Grove avenue, St. James Park) at 1:30 p.m. Passports, 50 cents. Those who cannot take the "trip" will be entertained at the "Paris" (Woman's Club House) at 8:30. If you want to know all about Avalon and Catalina Island, who's there, and what's doing, write 50 cents to The Times Office for a month's subscription to "The World." Avalon's new daily published by The Merchants' Company. It prints "All the News All the Time" concerning the enchanted isle, and tells big fish stories every day.

Be sure to take the "Trip Around the World" Thursday, April 23, given by the ladies of Christ Church, "steamer" leave "San Francisco" (W. D. Woolwine residence, No. 9 Park Grove avenue, St. James Park) at 1:30 p.m. Passports, 50 cents.

A beautiful potted growing fern given free to all purchasers of any plant shown at our sales today and tomorrow. As to show prices, inspect our bargain tables. Mammoth Shoot House, 327 S. Spring street.

Brent's furniture—Brent carpets—Brent draperies—The Brent credit system—they're all different and better than the ordinary.

### TUNNELILLS ARE SERIOUS.

#### Perilous Conditions West of Third-street Hole.

#### Cliff Crumbling and Sidewalk Buried Under Earth.

#### Extensive Improvements Await Action by City—Street Cars the Problem.

Residents of Crown Hills, who have to use the Third-street tunnel for daily access to their business district, will breathe easier when the west approach to the tunnel is put in a safe condition.

If this result is accomplished before there is loss of life, or damage to limbs of pedestrians, it will be due to good fortune.

Yesterday morning work was begun on the private property adjoining the city's menacing cliff of crumbling clay, and the damage caused thereby by the late heavy rains will soon be remedied. But the city's property stands this morning practically as it did when the rain ceased—even more dangerous than

beneath the present tunnel for the street car tracks.

Still another proposition, and one that may be as important as the tunnel itself, is being out of the ordinary, is an extension of the Angels' Flight incline road, across from the east hillside across to and down this western slope, and thus connect with cars run into the tunnel's mouth. At present the inadequacy of the tunnel, for a large volume of traffic is especially notable, as the city water department is laying twelve-inch mains along the driveway. In carrying on this work, about a third of the space between the tunnel and the hillside is being taken up.

#### MANY HOSPITAL CASES.

Numerous Small Accidents Kept the Police Surgeon and his assistants busy almost All Day.

There was more work at the Receiving Hospital yesterday for the Police Surgeon and his assistants than during any one day for several months. From before daylight until late last night victims of accidents kept coming in for treatment. None of the accidents was very serious, and all of the patients after having received attention, were able to leave the institution; but while the rush lasted, the hospital was the quietest place about the City Hall building.

Jose Gonzales was taken to the hospital by a team at 4:40 o'clock yesterday morning suffering from a fractured hand. The man, a mason, and his wife had been working on the Hillside when he slipped and fell, his hand getting caught in a heavy roller used in his work, and nearly all the flesh was then pinched off the palm of his right hand.

Louis Fairchild and C. H. Keller were

in the City Hall yesterday morning, his buxom and smiling wife within, the closed door was awaiting his arrival.

The husband, who, with forgiveness rare, has come across the continent to rescue her from his unhappy friend, was received with open arms and a sounding kiss.

Another night spent in jail, following the two visits from her husband on Tuesday, had brought her to her senses, and she was ready to return with Lamson to Chicago.

It was the most stupid folly for her to think of doing such aile, for her conduct with John P. Mills, after their discovery in this city, had been so unguarded that the evidence of adultery was complete.

Mr. Lamson was spared the embarrassment of again appearing in the Police Court yesterday at 10:30 a.m. though he had been set for Friday. Prosecutor Rose and Mr. Lamson went before Justice Chambers, and after a brief statement by Mr. Rose that the woman had consented to return home with her husband, he moved a demurrer on the complaint against him and the order was made.

Mr. and Mrs. Lamson left the Police Station and went direct to the cottage on Fifteenth street, where the latter had been living with Mills since her arrival in this city. The conditions of each had best be left to the imagination, while they were in that little house, but as soon as Mrs. Lamson had gathered up her effects they went to the Hotel Wilshire and were assigned to room No. 30.

They were in no hurry to come down to dinner, and when they walked down the broad staircase it was almost 7 o'clock. They were bright and gay and newly-wedded pair could have appeared more bucolic. Mrs. Lamson wore a dark skirt, a white shirt-waist and a jaunty broad-brimmed hat, with red flowers.

The afternoon, amidst the roar of the Overland car wheels, their joys and sorrows will be all talked over again; and whether the horrible nightmare

at that time, for large fissures have formed in the banks of clay back of the retaining walls, and should the section slide down the forty-foot embankment the force of the mass of earth will be terrific.

The sidewalk along the south side of Third street is almost completely buried by the mass of earth, and debris brought down by the rains, and each day fresh earth crumbles from the cliff and falls into the street. The cutter, along the west line of Hope street conducts the storm waters of the hillside down a steep incline, to dash against the tunnel entrance, and then down through two-foot holes in the street, one foot apart. The water, along the west line of Hope street, was soon clogged with trash, and the water sought the lower level by pouring over the side of the cliff. A great gulch, about six feet wide, had been washed out directly back of the retaining wall, and the rear are the fissures in the soil that are deemed dangerous by users of the street.

A horse driven by J. Harrower became frightened at something in Washington street, near the entrance to the hill, and reared, and turned so short that the buggy was upset. Harrower was thrown out, and as the buggy righted again the wheel passed over his head, causing what is supposed to be a temporary injury. He was raised unconscious, but soon revived, and after being treated at the Receiving Hospital, was able to go to his home at No. 4205 Vermont avenue.

H. H. Herberger, an employee of the Los Angeles Soap Company, dislocated his right thumb in endeavoring to board a moving car. He was thrown to the street, and received the injury in trying to save himself from a hard fall.

J. H. Harrower, who was working at the yards of the Simons brick Company when a heavy bar fell across his right hand, breaking several of the small bones.

Tommy Eaton, aged 22, who resides at No. 617 Turner street, tried to jump from a moving car near the corner of First and Alameda streets last evening, and, falling, struck on his head on the paved street. He sustained a number of severe bruises and a long wound in the street.

Lawrence Holmes has plans made for an important improvement on this property, as soon as the excavation is completed. He will erect a three-story building, with three stories fronting on Third street, and two stories fronting on First and Alameda streets last evening, and, falling, struck on his head on the paved street. He sustained a number of severe bruises and a long wound in the street.

NOVEL SCHEMES.

The recent proposition to allow a street car track through the tunnel has aroused much discussion in the district to the west of the hill. The plan is to have a subway. Some there who heartily favor the plan as the only feasible way of securing the much-needed rapid transit for that section. Others contend that even now the tunnel is too small for the traffic, and that the city should never consent to any curtailment of its general use by giving up space for car tracks.

One plan proposed is the building of a ten-foot tunnel for pedestrians alongside the present tunnel, and another plan is the making of a subway

for the car tracks.

DEAD WAGON RUNAWAY.

BUTTE (Mont.) April 22.—In a runaway of a team of horses attached to a dead wagon, the driver, F. H. Dix, was slightly injured. James Reed, another employee of an unlocated establishment, perhaps fatally injured.

The dead wagon was badly damaged and a corpse within it was exposed to view.

using arms to defend himself. It is the purpose of the officers of the police department in thus instructing patrolmen, to make it possible for the police to apprehend persons on the streets at unseasonable hours, and the instructions given are clear and distinct. No lover of law and order will object to being properly stopped at such hours and made to tell who and what he is, but in such instances as that here related, the man who accosts him in the street, or who is in the way, is not a criminal.

Mrs. Charles H. Lamson, is yet in ignorance of the fact that the partner in his perfidy has been released and gone with her husband. He is probably anticipating a greeting from her at the Police Court tomorrow, but Lamson, with his wife in tow, will have twenty-four hours' start of him for Chicago.

Mills, of course, will be released, unless his wife should suddenly appear on the scene to prevent his release. If reports are true, she is not likely that way, though she will probably make it very warm for Johnny should he reappear in Chicago or Cedar Rapids.

There was a report that she would come here to help in the prosecution, but Lamson says that, as far as he knows, there is no prospect of her doing so.

#### ENGAGEMENT IS OFF.

Parents of Miss Margaret Guenther contradict Report of Her Betrothal to Dr. Titian Coffey.

The Los Angeles friends of Dr. Titian Coffey will have to withhold their congratulations. The reported engagement of Dr. Guenther, a charming young society woman of Chicago, created quite a flutter in local social circles. Dr. Coffey is well known. Now come the parents of the young lady in question and say Dr. Coffey has no claim to her hand.

The report of the alleged engagement was published in the Los Angeles last week simultaneously with the return of Mr. and Mrs. Harry Al

# THE PUBLIC SERVICE—IN THE COURTS AND OFFICES.

## SUMMARY OF THE DAY.

Civil service in all its details was the one topic of conversation at the City Hall yesterday. Several of the health inspectors expects to be supplanted by civil-service graduates. A model set of applications for applicants for the police force was deciphered yesterday.

San Francisco parties have brought suit against W. M. Garland, alleging fraud.

The Hudson divorce suit is being tried before a jury.

In the Police Court yesterday, the examination of Luis Soto for assault with a deadly weapon, went over until Thursday. His victim may die.

Mrs. Edna Pendleton, charged with piano frauds, through the intervention of friends escaped prosecution.

## AT THE CITY HALL, RAMIFICATIONS OF THE CIVIL SERVICE RULES.

## HEALTH OFFICE INSPECTORS DO NOT LIKE PROSPECT.

Examinations Next Saturday Will Interest Applicants for Positions on the Police and Fire Forces—Model Set of Questions for a Mental Test.

Civil service is engaging the minds of city officials just now, even to the exclusion of franchise questions and 3-cent fares. Already the change from the spoils system has stretched many of the ties that bind. Nothing has yet occurred to break the entente cordiale, but it is apparent to those who peep behind the scenes that some members of the city's official family are ready to echo the sentiments of Senator Stewart of Nevada, who said, "Damn the civil service."

The assumption of the Civil Service Commission that the janitor of a public building is a skilled workman of the highest class in the commission. To what end does such a policy lead? If the janitor is a skilled workman, then the man with the pick and shovel is likewise, and both are to be classed as included in the civil service.

But it has appealed to shrewd observers that the action of the Civil Service Commission in declaring a janitor a skilled laborer was to check at the outset a disposition on the part of the heads of departments to arrange for the payment of men by the day as a means of getting the best from the civil-service rules. It will be remembered that the Board of Education asked whether janitors might not be exempted if they were taken off the main pay rolls and paid by the day. This request was made because the charter exempts from the civil service "all unskilled laborers employed by the day," and the members of the board believed that it would not be feasible to secure janitors by competitive examination.

Undoubtedly the Civil Service Commission might have listened to the arguments advanced by the Board of Education but for the fact that it would have thrown down bars over which the Commission would be only too willing to leap. The Councilmen on the pay rolls and decreases what men shall be employed by the day and what men by the month. If the Board of Education was allowed to remove the janitors from the civil service by changing the monthly stipend to a daily wage the example would be followed in other departments and the purpose of the civil service would be evaded. Consequently, while the best of educated doubt, if janitors can be classed as skilled laborers, they do not doubt the wisdom of such a service. Commission in placing a somewhat strained construction on the status of janitors. This is especially true since it has come to light that several men have been employed as day laborers in the water department, who are doing clerical work in the offices.

INSPECTORS WORRIED.

The announcement that the make-up in the Health Office is forthcoming has caused much stir among the inspectors and their friends. Councilmen were scurrying around yesterday trying to save their favorites, but it is said that the Board of Health is determined to carry out its intention of securing more capable men for the civil-service examination—will be held in early day for the selection of sanitary inspectors, and certain of the present force will be requested to stand by until next year. It was stated with great positiveness yesterday that the board has determined the removal of William H. McGill, clerk of department; George L. Pierce, milk inspector; H. Sief, a sanitary inspector, who had been charged with the check of the county, and J. E. Hunsicker, a sanitary inspector, who has been doing general work. McGill was appointed at the request of Councilman Summerland, and it is said in his favor that he has attended to his work. This work, however, has not been entirely satisfactory to Health Officer Pennington and the board. It is said, has decided that he is not sufficiently capable to hold the position of clerk of the department.

Information at hand points to the retention of Dr. Sumner J. Quint, assistant health officer; A. W. Sanborn, sanitary inspector; R. E. Drummond, fruit and vegetable inspector; L. McCreary, keeper of the smallpox hospital; H. A. Barnardough, J. A. Traynor and Gran Gilford, sanitary inspectors, and George Hooser, fumigator.

EXAMINATIONS SATURDAY.

Everything is being put in readiness for the civil-service examinations next Saturday, when 151 men will be examined for the several positions where men are most needed. Much time has been put on the arrangements for the examinations by the Civil Service Commission in order to make the first attempt a success. Applicants for positions on the police and fire forces will be given a physical examination by the Health Officer at the City Hall tomorrow.

Great secrecy has been observed in framing the questions which will be put to the candidates for examination. The police and fire applicants will be put through various gymnastic exercises at Turner Hall Saturday morning, and later on will be given a test of their mental fitness to join the city's "finest." While very little will be done at this late day to help the would-be policemen and firemen over the pitfalls of this strenuous mental examination, it has been learned that the Civil Service Commission is preparing for the test had before it a series of questions devised for the Chicago civil-service examination for the police force. These questions are so apparently designed to test the mental prowess of the policeman that it is not unlikely the board may have given them more than ordinary consideration. The first class of applicants may derive some consolation from the sug

gestions given to the list, which is as follows:

### STAR QUESTIONS.

(1) State what is meant by Nebular Hypothesis.

(2) If you were locked in a patrol box, besieged by a gang of hoodlums, and the telephone out of order, what would you do, and how would you do it?

(3) Give the solution of Euclid's forty-seventh problem.

(4) If you saw a runaway coming down the street, would you run too? In what direction?

(5) State what is meant by the so-called "third motion" of the earth.

(6) If you were confronted with a skilled team would you assist in lighting the wood you would take on a load of your own?

(7) Give the definition of mnemonic.

(8) Have you ever seen a building which appeared to be revolving—the Masonic Temple, for instance? If so, to where would you ascribe the phenomenon?

(9) What is a diaphor?

(10) If you should meet a strange dog without a license tag how would you determine on the spot whether the owner had a license?

(11) How were the names of the two months derived?

(12) If the patrol sergeant closely followed you into a saloon which you had entered during duty hours would you proceed to do what you would in there or would you buy yourself with examining the saloon-keeper's license?

(13) Give the location of the center of population of the United States.

(14) Could a glacier be one that had no fruit stands, or would you prefer to travel where you could beat a stand?

(15) What is the difference between a pugnacious and a reticent person?

(16) If the patrol sergeant followed you later and had discovered you drinking liquor, would you say that your star was in the ascendant, or just "up in the air?"

(17) Where does the Euphrates River rise?

(18) Are you subject to insomnia? If so do you think a job on the police force would cure you?

(19) Name the nearest star (not planet), and the estimated distance from the earth.

(20) Assuming that you have been assigned to a beat having twenty-eight saloons and three churches, would you become familiar with the location of the strongest saloon than with the location of the three?

(21) Who was Vercingetorix? Why should he be mentioned in history?

(22) It appointed to the force how soon thereafter would you become a candidate for alderman?

(23) How many square inches are in an acre?

(24) Having discovered a fire and turned in an alarm, what would you do next? Turn in firewater?

(25) How many points of direction has a mariner's compass?

### LICENSES Tell Tales.

According to the license books of the city, bowling is losing in popularity and billiards and pool are gaining in popularity as a means of recreation. The number of bowlers in the city increased from eight to seventeen, and this year the number has decreased to fourteen. Twenty-nine billiard and pool parlors paid licenses early last year, and the number increased to twenty-four, and the number of the present year. These parlors paid \$300 into the City Treasury each month. Since January the number of parlors taxed has increased from forty-three to sixty-six, and the payments to \$52 a month.

He admits that the plaintiffs de-

mand for damages has been "promptly and absolutely refused."

The plaintiffs are represented by Hinckley & Estate.

Garrison's attorneys are Clarence Miller, Esq., and George J. Dennis, Esq.

FAKE ABSTRACT.

Fake title abstracts and charges of cheating and fraud figure in a suit brought yesterday against James Rutledge and James H. Henderson and C. A. Runels.

Anna L. Like and A. I. Like, the plaintiffs in the suit, claim that Runels got them to trade some land in San Benito County for a home in Ohio, purporting to be on a mineral estate.

They claim that Garland, by using some of his wife's relations as dummies, bought some property of these clients for himself, paying \$35,000 when it was really worth \$40,000, they relying on his judgment in making the sale.

They brought suit against him yesterday for \$50,000 damages, the following being named plaintiffs in the suit: Henry J. Crocker, Carrie C. Green, Lizzie C. Van Fleet, Fannie C. McCreary, Julia C. Buckbee.

Garland declares in rebuttal that his dealings with these complainants were all fair, open and above-board.

WHAT PLAINTIFFS ALLEG.

The plaintiffs allege as follows:

That in October, 1901, they were owners of property at Sixth and Main streets.

That Garland was their agent.

That the real estate agent, who accuse him of having taken them out of \$15,000 on a mineral estate.

They claim that Garland, by using some of his wife's relations as dummies, bought some property of these clients for himself, paying \$35,000 when it was really worth \$40,000, they relying on his judgment in making the sale.

# School for Housewives

By Marion Harland

## Hints for the Housewife

By Marion Harland

**Y**OU WOULD undoubtedly do humanly a great favor if you in your "Hints to Housewives" tell them to pay attention to the condition of the milk bottle the milkman delivers. In hardly any bottle of milk of any sort of bottle is cracked, and this splinter of glass are found on the paper cover that serves as a cork. The tops of bottles are also look as if the milkman used a rough, hard, unpolishing stone or less "good estate" on the top of the bottle.

On opening the bottle most people carelessly remove the stopper, the glass splinters come in the milk and are swallowed. Such tiny splinters of glass have I found that they easily float; and stick to the surface of milk.

For this reason is the reason so many complain of "dyspepsia," but in the glass splinters that play havoc and cause disease of the stomach.

Make the housewife or servants refuse all but clean bottles, and especially those with cracked neck, or "nicked," and a good deal less stomach complaint will be the result.

### How to Clean Camoos.

Take a clean toothbrush and soap suds, brush gently. Clean off with cold water, lay up moisture with a clean piece of linen. (do not rub, as it will make camoos shiny). If camoos have taken color of age, put in strong sunlight, under a blue cheveau blue cover.

A. H.

"A. H." suggests the remedy in the same breath in which he names the disease. The checking of such a state of affairs lies in the hands of the housewives themselves. If they would decline to take the milk bottles when they arrive in the condition described, and would write a note to the dairy from which the milk comes, asking that the bottles be cleaned before being sent, there would soon be an improvement. It is by submitting to such abuses as this that persons encourage impositions and cheating.

The correction for cleaning camoos comes with especial appositeness just now, when these stones are emerging from a long period of retirement, and coming into fashionable use again.

**Y**OU recently gave a recipe for cleaning wool dress goods. You also ask for other suggestions. I give the following, for having tried it, I have found it "not wanting."

Take one quart of water. Boil with enough soap to make the consistency of starch. Strain well. Wash goods in this. Positively no soap required. Rinse in same kind of water. Lay out to dry.

These goods like new and is certainly not a dangerous process and not an explosive one.

This is a recipe well worth having, and, as the correspondent says, possesses a high recommendation in not being explosive.

**I**HAND you herewith two simple but very useful household recipes:

1. For cleaning gold, silver and all plated or common metalware, also windows, glass, mirrors, etc., wash with white whiting and ammonia to a thick paste, and apply with damp woolen or flannel rag.

2. For cleaning and polishing stoves, make a paste of lamp black and alcohol. Rub on briskly with soft rag.

For the most part, as it takes very little to do good work.

Of course I have an axe to grind.

A few years ago I cut out of a paper (have forgotten the name of paper) containing the name of God in fifty (50) different languages. I have since lost it, but I can still obtain it. I also had a list containing the name of times various words appear in the Bible, etc.

I would like to copy the other list containing facts about the Bible which are in any way peculiar or not generally known.

It may seem somewhat peculiar to you, but I assure you that I do not ask you out of idle curiosity.

Thanking you very much, and hoping to hear from you at your earliest convenience, I am,

J. J. J.

The value of the two receipts given in the above contribution is surely great to those who are in the habit of giving the constituency to set to work to try to find the correspondent's axe for her. The list of which she speaks may be of great value to the housewife. I hope that some one of our family circle will be able to furnish it. I shall look for responses to her inquiries.

NOTICED inquiry from a person signing "Anxious" for a remedy for tonsil ulcers. Please inform her to use the following recipe, which will give relief, no matter how severe the case may be:

For tonsil and swelling of the neck, boil two handfuls of hops in one quart of water until dry. Then add one teacup of vinegar, warmed (not boiled), add one tea-cupful of thickened laudanum, two layers of cloth, and place around the throat. Use morning and night. For tonsil apply warm, and change now and again.

The foregoing suggestion sounds somewhat sensible and may do ought good, but it certainly affects upon the pain and disease that accompany any affection of the tonsils.

TAKE time by the forelock" is a wise old saw and a useful one to the head of a busy house. If you have four or five in family and are doing your own housework, how

### CREAMED SWEETBREADS A CHAFING DISH DAINTY

A GOOD chafing dish dainty for a late supper is creamed sweetbreads with coffee and little bread, and with butter and little bread, and with butter sandwiches it is very satisfying. It can be prepared in a trice, quickly done, requiring only heating at the time, as the creamed sauce and

sweetbreads are prepared in advance, without any way taking from the dainty.

A pair of sweetbreads, one pint of cream sauce and a dash of sherry added.

The sweetbreads should be cut in small discs. The cream sauce is first put in

the dish and heated, stirring all the while. When the sweetbreads are added, the temperature until the boiling point is reached. The lamp is then lowered and a wineglass of sherry added. This may be served on toast or

on a plate.

To make a pint of cream sauce take two tablespoons of butter, two of flour, one pint of cream or milk, half a teaspoon of salt mixed with a dash of pepper. Rub the butter and flour until a smooth paste, then put on the fire and add gradually the cream, stirring constantly until the proper creamy consistency is obtained, which should take twenty minutes. This quantity serves four.

It is then served, simply sauced.

To make the bread and butter into dainty little sandwiches is much neater to have the sweetbreads at the support time, while the plate of prettily shaped sandwiches adds to the feast.

The sweetbreads should be cut in small discs. The cream sauce is first put in

the dish and heated, stirring all the while. When the sweetbreads are added, the temperature until the boiling point is reached. The lamp is then lowered and a wineglass of sherry added. This may be served on toast or

Rub the butter and flour until a smooth paste, then put on the fire and add gradually the cream, stirring constantly until the proper creamy consistency is obtained, which should take twenty minutes. This quantity serves four.

It is then served, simply sauced.

To make the bread and butter into dainty little sandwiches is much neater to have the sweetbreads at the support time, while the plate of prettily shaped sandwiches adds to the feast.

The sweetbreads should be cut in small discs. The cream sauce is first put in

the dish and heated, stirring all the while. When the sweetbreads are added, the temperature until the boiling point is reached. The lamp is then lowered and a wineglass of sherry added. This may be served on toast or

on a plate.

To make a pint of cream sauce take two tablespoons of butter, two of flour,

one pint of cream or milk, half a teaspoon of salt mixed with a dash of pepper. Rub the butter and flour until a smooth paste, then put on the fire and add gradually the cream, stirring constantly until the proper creamy consistency is obtained, which should take twenty minutes. This quantity serves four.

It is then served, simply sauced.

## San Bernardino, Riverside and Orange Counties.

[NEWS REPORTS FROM TIMES CORRESPONDENTS.]

## SAN BERNARDINO.

NEW SAVINGS BANK.

**SAN BERNARDINO.** April 22.—Early in May a new financial institution will be in full swing in San Bernardino, strongly backed by well-known capitalists of this city, Los Angeles, Redlands and vicinity. Articles of incorporation of the San Bernardino County Savings Bank were filed today, with a capital stock of \$50,000, all subscribed. A meeting of stockholders for the election of directors will be held before May 1, but it is understood that E. D. Roberts will be president, and G. Kendall, secretary and general manager of the new institution. Among the stockholders are A. C. Kendall, H. E. Harris, J. B. Gill, W. S. Hooper, Seth Marshall, W. J. Curtis, J. E. Davis, A. M. Ham, H. B. Smith, Dr. L. W. Hazlett, E. H. Spooner of Redlands; A. J. Wright of Rialto, Col. R. M. Baker, Judge F. F. Oster, C. R. Harrison, Henry Fisher of Redlands, A. C. Demman, Jr., of Redlands, H. H. Sinclair of Los Angeles, George B. Ellis of Redlands, T. A. Blaizeley of Redlands, George W. Parsons of Highland, A. G. Stearns of Highland, E. D. Roberts, Golfey Holterhoff, Jr., of Los Angeles, Howard Young, James Murray, L. R. Brunn, Joseph Boob, and Dr. C. C. Hartman of Highland.

For the present the bank will have quarters with the San Bernardino National Bank, at Third and E streets. Mr. Kendall and Mr. Hooper went to Los Angeles today to look after new furniture, stationery, and so forth, to provide for the opening of business by May 1, or a few days later.

## BULLET KILLS CHILD.

Clarence McFee, the seven-year-old boy who was accidentally shot at West Highland Sunday while playing with his companions, died this morning as a result of the wound from the bullet that pierced his brain. The fatal shot was unwittingly fired by the boy's uncle, a lad only a few years older than the victim. J. R. Menken, the dead boy's grandfather, gives an authentic account of the tragedy: "The boys were watching for an owl to come out of the hole. While they were waiting one of the boys threw up his hat for another to shoot at. Clarence was lying on the ground playing, and started to run to the other side just as the boy took aim at the hat, and the sad accident occurred."

## ALLEGED FORGERY.

Albert Robbins, who looks like a hobo, was arrested last evening on a charge of forging a check for \$5 drawn on the San Bernardino National Bank, and purported to be signed by T. J. Swan. Robbins offered the check in payment for a pair of shoes which he purchased at the All Right shoe store. The clerk did not feel authorized to cash the check, but took it in payment for the shoes, and gave Robbins \$2 in cash, and a receipt for the balance due on the check. Inquiry developed that no such man as Swan had any money deposited at the bank, and to all appearance the check had been issued by the same man who executed it. Robbins was located and was taken, and after telling conflicting stories about the check, was locked up in the County Jail, pending an investigation.

## PYTHIANS CELEBRATE.

Valley Lodge, No. 27, of this city, and Highland Lodge, No. 211, joined in a big Pythian celebration here last evening. A candidate was initiated into the mysteries of the order, the second degree was conferred, after which there was a banquet at the New York Kitchen at which F. B. Daly acted as toastmaster.

It was decided at the meeting that if suitable arrangements can be made, a building should be constructed here as a home for the Pythians. A committee, consisting of Herman M. White, Arthur Palmer, Ruth McElroy and Fred Wood, was appointed to look into the matter, and, if possible, hit upon a practical scheme for carrying out the project.

## WHERE ARE THE BOYS?

The Stewart Hotel bar was robbed Sunday night. The thief or thieves left no trace behind them, but Sheriff Hopkins thinks that if Earl Redman, a bartender at the Hotel Adams, who was employed in the hotel when it was broken into, may be able to tell something about the robbery. Redman and Adams, who had been employed at the hotel several months, mysteriously disappeared the night of the robbery.

## EVENTS IN SOCIETY.

**Mrs. Henry Clarence Beville** gave a charmingly-appointed reception yesterday afternoon at her beautiful Hollywood home, "Green Meadows," being assisted in receiving by Mrs. S. P. Thiel Beverage, Mrs. Edward G. Waldron and Mrs. Edward Payton Newton of Hollywood, and from Los Angeles Mrs. William B. Mathews, Mrs. William Mead, Mrs. E. Adams, Mrs. W. H. Luis and Miss Bezell.

The reception was most happily planned, and from the little French reception-room, where clusters of rose-pink carnations harmonized with the pale tints of walls and tapestries, to the cosy den where the "girls" in "girls' attire" for this special occasion, the Pythian beauty zones nodded from a tall crystal vase on the center table, and deep-red carnations blooming from queer Japanese vases on mantel and desk and low, broad window seat, only accentuated the rich tones of the furniture. Everywhere was an artistic arrangement of distinctive flowers in keeping with the distinctive color scheme of each room. Asparagus plumbous traced delicate patterns on the long macrame draperies of window, and lined the room doorways. Mrs. Beville received in the long, colonial living-room. Here pure *Pleur de Lis* were on table and piano, ascension lilies occupied a tall jardiniere on the floor, and the fireplace was hidden by curtains of white muslin. The west end of the room makes out into a rounded alcove that is almost like a second apartment, the tops of the low book cases were banked with small palms and ferns and purple *Pleur de Lis* were on a table in the center. An immense bowl overflowing with Bridal-maid roses occupied the center of the damask table cloth in the dining-room and was duplicated by other clusters on the mantel, while the table was covered with a white cloth and tiny pink shades topped the tall candlesticks in the quaint candlesticks. Strands of similes formed a canopy over the table, and reached the sides of the room.

Yellow marigolds spoke a bright welcome in the reception-hall, a profusion of wild mustard concealed the balustrade, and on a platform caused by a turn in the stairs was enconced a strung orchestra, where, behind curtains of similes and a bank of yellow

and the officers so far have been unable to locate them.

## NEW PRESIDENT.

The new Board of Education elected W. M. Parker president, to succeed J. B. Frith, and Miss Lulu Claire Davis was chosen secretary. It was decided to close the school during the Spring vacation, the week taken off by the school under the new law giving alleged insane persons the right of trial, the first case of the kind to come up in this country.

The Shaw Preserve Company of Ontario has filed articles of incorporation. The company is capitalized at \$50,000, of which \$25 has been subscribed. The directors are George Chaffey and J. R. Keen, of Los Angeles; B. C. Shepherd, Elton R. Shaw and John Crawford of Ontario.

E. W. Raynor, a Del Rosa rancher, was arrested yesterday on complaint of S. W. Windel, who runs a store at the ranch. Raynor had threatened to kill him. Raynor had leased on bonds. The trial will take place Thursday morning in Justice Thomas's court.

Adolph Johnson has purchased the brick residence on South Spring street owned by Mrs. Jane Gould. The consideration was \$200. Mr. Johnson intends to build a fence mill on the property and use the warehouse for storage purposes.

E. R. Lowrance has resigned his position as local manager of the Sunset Telephone and Telegraph Company, and left today for Los Angeles, where he will make his future home. He will be succeeded by Edward Wagner of Los Angeles.

## FULLERTON.

**FUQUA-WEST.**

**FULLERTON.** April 22.—Isaham W. Fuqua, head bookkeeper at the Graham & Lotus oil wells, and Miss Winnie West, a charming young lady of Fullerton, were married at the home of the bride's parents, Mr. and Mrs. W. A. West, on West Commonwealth avenue, this afternoon at 2 o'clock. Rev. Henry Roslyn, pastor of the Methodist Episcopal Church, officiated, in the presence of relatives and friends of the family. The parson was greatly delighted for the happy occasion. A dinner and reception followed the ceremony, after which Mr. and Mrs. Fuqua departed for Mt. Lowe, and other points to return to their honeymoon. The pair will return to the oil wells and reside at the Graham & Lotus wells, where Mr. Fuqua has fitted up a neat cottage.

## SANTA ANA.

**LONG DIVORCE TRIAL ENDED.**

**SANTA ANA.** April 22.—After thirteen days of evidence-taking and argument, the divorce suit of Anna M. Royer vs. Dr. D. F. Royer, prominent people of Orange, was concluded yesterday. The suit was originally brought by Mrs. Royer, on the grounds of cruelty, but Judge West denied the application, and afterward granted Dr. Royer a divorce on a cross-complaint, on the same grounds as those alleged against him in the original complaint of Mrs. Royer. The case was one of the hardest-fought in the history of the county.

## BRIEFLY TOLD.

Mrs. Katherine Blodgett-Kipp, assisted by Miss Blanche Rogers, pianist, and Ludwig Opid, cellist, of Los Angeles, gave a concert at Sprague's Hall last night before a large audience. The celebrated contralto was favorably received.

C. E. Way of El Modena has received a diploma from the Pan-American Exposition for a display of pomelos.

The annual rodeo of cattle on the San Joaquin ranch is being held this week.

**ARTICLES OF INCORPORATION** were filed today by the Missionary Committee of the German Baptist Church for the district of Arizona and California, the principal place of business being at Covina, Los Angeles County. The church is described as the buying, import, owning or leasing of houses of worship and the carrying on of a general missionary business. The directors are A. M. White, Covina; Thomas Koenig, Los Angeles; D. J. Overholser, Covina; J. Overholser, Colton; S. A. Overholser, Colton.

The Supervisors yesterday discussed the granting of a franchise to the Home Telephone Company to operate its lines on the highways of the county. A motion was made and carried to accomplish a motion to advise the franchise for sale being lost by a vote of 2 to 2.

Prof. N. B. Pierce and Assistant Mayor Lucy of the local Government

low mustard blossoms they rendered a soft mustardy accompaniment to the low tones of the bright laughter of the ladies. Mrs. Beville and those assisting her in the pleasant duties of hospitality were charmingly gowned, their chic reception toilettes helping to form, with the handsome men, a picture of a gay, brilliant scene. The hours were soft 2 to 5, during which time nearly 150 ladies left cards.

**Whittemore-Pays.**

At No. 513 Monte Vista, Highland Park, the residence of John C. Watson, on Wednesday evening, a delightful wedding party assembled to celebrate the union of Mrs. Richard Payne of Covington, Ky., with the Rev. Isaac T. Whittemore of the First Presbyterian Church.

Master Fulton and Miss Ruth Watson were in attendance on the bride, who was given away in Scotch fashion by Mr. and Mrs. Whittemore. The wedding ceremony was performed by the Rev. Dr. Berry of Highland Park Presbyterian Church, assisted by Rev. Dr. McKinney, and the large circle of relatives present enjoyed the interesting event, which was prolonged with musical selections.

The lady was tastefully robed in a gray silk gown, relieved with white lace and lace and sprays of orange blossoms, and looked winsome and gracious.

**House Warming.**

Mrs. Elsie Kerckhoff and Otto Wilhelm were married yesterday noon at the residence of the bride's mother on Concord street. Owing to a recent bereavement the ceremony was performed next Wednesday—Miss Pollard, Miss Coulter, Miss Simonds, Miss Phelps, Miss Bell Coulter. Others who attended the wedding were Rev. Mr. Robert M. Allen, Mrs. James T. Talbot, Misses Reba Cole, James Moore, Adele Brodthock, Dvors and Mary Patterson. The young ladies brought their newfounds and the time was spent informally.

**Concord-street Wedding.**

Mrs. Emma Schreiner and Otto Wilhelm were married yesterday noon at the residence of the bride's mother on Concord street. Owing to a recent bereavement the ceremony was performed next Wednesday—Miss Pollard, Miss Coulter, Miss Simonds, Miss Phelps, Miss Bell Coulter. Others who attended the wedding were Rev. Mr. Robert M. Allen, Mrs. James T. Talbot, Misses Reba Cole, James Moore, Adele Brodthock, Dvors and Mary Patterson. The young ladies brought their newfounds and the time was spent informally.

**Leut. Mine's Reception.**

Mrs. Randolph H. Miner entertained at luncheon yesterday at her Scarff-street residence in compliment to Mrs. Hinman of Dunkirk, N. Y., who has the guest of her daughter, Mrs. William M. Garrison, for several months, and Mrs. Keane of No. 297 South Figueroa street. The guests were served at small tables that bloomed with a profusion of spring flowers. There were two tables at the table.

Leut. Mine has accepted an appointment at the Naval Academy of Annapolis, where he will go to be head of the department of modern languages, and a member of the academic board. "Miss," of course, means that Leut. Mine and his charming wife will

be miniature playing cards, with the backs engraved in usual card fashion. Arrangements were made for a trolley party during Fiesta week. There were twelve present.

**News and Personal.**

Mr. and Mrs. Edward L. Doheny and Mrs. Doheny's sister, Mrs. Crampton Anderson, returned from their trip to Mexico, where they went in Mr. Doheny's private car. Estelle, their daughter, remained in Mexico with Mrs. Charles E. Harwood and daughter of Ontario.

The Yoke Fellows, a class of young men in the First Methodist Episcopal Sunday-school, will give the fourth anniversary banquet at Hotel Sunnyside on Saturday evening. Misses Mary, May, and Dr. Brodbeck have accepted invitations to be present, and will address the company, which, it is expected, will number about sixty. Ladies will be honored guests.

Miss Edythe Armstrong has returned from an extended visit in New York and other eastern cities. While en route, she stopped at Williams, Ariz., and spent several days at the Grand Canyon as the guest of Mrs. Lulu Wharton-Simms.

## WOMEN'S CLUBS.

## Ruskins Art Club.

"Michelangelo" was the subject of the morning session at the Ruskins Art Club. Mrs. A. S. Gibson being in charge of the lesson. Mrs. I. B. Huber gave a general outline of the life of the great master, and a paper dealing with the cartoon competition between Michelangelo and Leonardo da Vinci was read by Miss Belle Smith. The other papers not yet been prepared were postponed that the club might listen to W. Irving Way of Chicago, who addressed the ladies on "Rare and First Editions of Books, and Book-Binding."

## Beautiful Homes.

Mrs. G. H. Wadleigh addressed the Child Study Circle of the Twentieth Street School the afternoon of April 15 on the subject of "The Home Beautiful" and Mrs. W. H. Housh spoke interestingly on "The City." Musical numbers were furnished by Miss Oliver, Mrs. Durkee, Miss Hilda, Helen Boon, Mrs. Miss Birn and Mrs. Birn, a business meeting preceding

## Women and the Poppy.

An enthusiastic and interesting meeting of the Woman's Club of San Luis Obispo was held Saturday evening. The session was devoted to a discussion of the work which led up to the adoption of the golden poppy as the State flower of California. Mrs. E. W. Way, of El Modena, addressed the audience on "Address and appropriate music was rendered. Poppy seed were distributed to all the members of the club with the request that they be planted at once.

## Santa Ana Meeting.

At a meeting of the Santa Ana Women's Club Tuesday afternoon, the members listened to papers by Miss Grace St. John, Los Angeles, on "Character Building," and by Mrs. Lovicia Leslie on "Parliamentary Law." Mrs. D. C. Higbie was elected president and Mrs. Carris E. Way was chosen delegate to the District Woman's Parliament, which will meet at Azusa May 12 and 13.

## Notes.

Prof. Paulin will continue as musical director of the Treble Clef Club the coming year, and Miss Blanche will fill the position of accompanist.

The meeting elected a committee of officers of the Wednesday Morning Club will be held in Campbell's Hall, May 6.

## MARQUIS ON THE MARKET.

American Girls Have Opportunity to Bid on a Title With the Owner Thrown in.

BY THE ASSOCIATED PRESS—A.M.—

**NEW YORK.** April 22.—Armed with documents verifying his claim to nobility, Marquis Arthur May Durazzo, of Naples, Italy, has come to New York with the avowed intention of marrying an American heiress, and a thousand dollars a month.

It was the warmest day of the season.

Alan Irvin was committed to the Highland Asylum yesterday.

Allen Storrs died yesterday, aged 75 years.

A dance was given last evening at Hotel Reynolds.
